INTRODUCTION

Justice Petroleum Distribution Pipe and Fittings (Pty) Ltd was set up in 2022 in South Africa and immediately started trading as a supplier of petroleum piping, fittings and pump and tank installation. The company was formed with the focus on the end-user (the client), providing the best quality products and services at most competitive prices resulting from a low cost and highly efficient products.

We pride ourselves for the ONE STOP approach to our customer's needs with ON TIME- TROUBLE FREE deliveries and we are rewarded by the trust and loyalty of our clientele.

CEO STATEMENT

On behalf of the management and staff of Justice Petroleum Distribution Pipe and Fittings, we wish to offer our commitment to provide professional services. With our vast partnerships, we are able to meet the market's and the country's industrial needs.

We would like to emphasize our commitment to delivering high quality services and products to all our clientele regardless of capacity.

ABOUT US

Our core business as a supplying company is the marketing and selling of pipe and fittings and pump and tank installation. In this regard therefore, the supplying business is the most elaborate of all our other operations. The supplying business segment is broadly divided into Retail and Commercial. Justice Petroleum is engaged in the midstream and downstream operation of pipe and fittings products.

The company is fully registered in South Africa and is headquartered in Meyerton. Justice Petroleum has embarked on providing convenience services through a retail network. We are continuously expanding and enhancing our business. Our goal and aim is to become the sole distributors for a specialised pipe and fittings brand which will solidify our position as one of South Africa's leading supplier of pipe and fittings.

In addition to pump and tank installation, and as we expand our business to it as a key revenue stream. Our vision is to transform our service into one stop where our customers can make purchases of our products.

MISSION, VISION & VALUES

MISSION

Our mission is to deliver exceptional petroleum maintenance solutions, ensuring the integrity, safety, and efficiency of fuel stations and petroleum infrastructure. We strive to build strong partnerships with our clients, provide reliable services, and contribute to the growth and sustainability of the petroleum industry.

Vision

To be the leading provider of petroleum and civil maintenance services in South Africa as well as the African regions such as Lesotho, Swaziland and Botswana, recognized for our commitment to excellence, innovation, and customer satisfaction.

VALUES

- Honesty & Trustworthy
- Integrity
- Compliance
- Excellence
- Customer Satisfaction
- Gender and Race equality
- Reliability

COMPANY HISTORY

The company was founded with the vision of addressing the increasing need for professional and reliable petroleum, construction maintenance services in South Africa. Since its inception, Justice Petroleum Distribution Pipe and Fittings (Pty) Ltd has steadily grown and developed a reputation for excellence in the industry, serving a diverse clientele across the country.

BUSINESS STRATEGY

Justice Petroleum Distribution Pipe and Fittings (Pty) Ltd will differentiate itself by providing comprehensive, tailored maintenance solutions to fuel stations sites across South Africa as well as leaving a footprint in the African regions such as Lesotho, Swaziland and Botswana. Our key strategies include:

- Offering a full suite of maintenance services, including routine inspections, preventive maintenance, emergency repairs, construction and compliance assessments.
- Building strong relationships with fuel station operators through exceptional customer service, timely response, and efficient problem solving.
- Ensuring compliance with all relevant safety and environmental regulations.
- Developing strategic partnerships with suppliers and industry experts to enhance our service offerings and stay up to date with technological advancements.

ORGANISATION STRUCTURE

Justice Petroleum Distribution Pipe and Fittings (Pty) Ltd follows a hierarchical organizational structure, allowing for efficient decision-making, clear communication, and effective coordination among various departments and teams.

Operations and Infrastructure:

Justice Petroleum Distribution Pipe and Fittings (Pty) Ltd will establish a central office for administrative functions, including customer support, scheduling, and billing. Field technicians will be dispatched from the central office to provide on-site maintenance services. The company will invest in a fleet of well-equipped service vehicles, tools, and diagnostic equipment to ensure efficient service delivery. A robust inventory management system will be implemented to track spare parts and supplies.

Financial Overview:

The financial projections for Justice Petroleum Distribution Pipe and Fittings (Pty) Ltd are based on market research, estimated service demand, and operating costs. Key financial considerations include revenue forecasts, expenses (including labour, vehicle maintenance, and supplies), and projected profitability. These projections will be regularly reviewed and updated to monitor performance and make necessary adjustments.

Growth Strategies:

Justice Petroleum Distribution Pipe and Fittings (Pty) Ltd aims to achieve growth through various strategies, such as: Expanding the customer base by targeting new fuel station operators and petroleum retailers. Introducing new services based on market demand and emerging industry trends. Establishing strategic partnerships with industry stakeholders to enhance service offerings and geographical reach.
